Grand Opening at Chaparral in El Dorado Hills

June 19, 2015

By: Staff

Chaparral by The New Home Company has announced its model grand opening celebration in El Dorado Hills this weekend. The grand opening of the collection of 72 single-family residences in the master-planned community of Blackstone in El Dorado Hills will take place from 10 a.m.-4 p.m. Saturday and Sunday. The event, highlighted by the opening of three new designer furnished residences, will include live music, a balloon artist and iPad giveaways.

Set in the foothills of the Sacramento Valley and surrounded by scenic open space, the homes of Chaparral will feature up to 2,422 square feet of indoor/outdoor living space with up to five bedrooms and four baths. Residences will include New Home's signature "life space" design approach that provides flexible floor plan and structural options for multi-generational families. The homes will also include state-of-the-art green architectural features.

"Blackstone is emerging as one of the leading new communities in this desirable and naturally beautiful area of Sacramento and we are extremely pleased to be a part of it," said Kevin Carson, president of New Home Northern California. "We've put a tremendous amount of research and thought into the designs at Chaparral so that buyers will find our homes to be an extraordinary opportunity."

The 990-acre master-planned community of Blackstone El Dorado is conveniently located along the Highway 50 corridor, within walking distance of the successful El Dorado Hills Business Park, and just minutes from shopping, restaurants and lifestyle amenities. Soon, Blackstone will offer an elementary school, parks and miles of trails. The resort-style Club at Blackstone will serve as the social and recreational hub for residents, family and friends.

The homes at Chaparral are expected to be priced from the mid \$400,000s.
